CIBEROBN WEBINARS 2025

UPCOMING FEBRUARY WEBINAR

Impulsivity, CVD and antipsychotic-induced weight gain

Relationships between impulsivity and cardiometabolic diseases

Carlos Gómez Martínez
CIBEROBN

Antipsychotic-induced weight gain in psychosis: a fetal programming matrix

Clemente Garcia Rizo
CIBERSAM

FEBRUARY 19, 2025

4:00 P.M.

JOIN THE WEBINAR

CIBEROBN WEBINARS 2025

UPCOMING MARCH WEBINAR

Exploring adipose tissue: Insights into childhood obesity and inter-organ crosstalk in health

Adipose tissue and childhood obesity in mice and humans

Marijana Todorcevic
CIBEROBN

Mechanisms mediating the adipose tissue crosstalk with other organs and their impact on the cardiometabolic and immune health

Josep A. Villena
CIBERDEM

MARCH 19, 2025
4:00 P.M.

CIBEROBN WEBINARS 2025

UPCOMING APRIL WEBINAR

Exploring dietary factors and metabolic pathways in the context of chronic diseases

Unraveling the role of caffeine-related metabolites on the association between coffee consumption and CVD and T2D incidence

Indira Paz Graniel
CIBEROBN

Dietary habits and gut microbiota composition in the context of neurodegenerative diseases

Laura Moles Alegre
CIBERNED

APRIL 16, 2025
4:00 P.M.

CIBEROBN WEBINARS 2025

UPCOMING MAY WEBINAR

Involvement of society and new technologies in scientific development

Monitoring of physiological parameters using wearables

Jesús Lázaro
CIBERBBN

The involvement of patients and the community in the research process

Naomi Cano Ibáñez
CIBERESP

MAY 21, 2025

4:00 P.M.

CIBEROBN WEBINARS 2025

UPCOMING JUNE WEBINAR

Molecular approaches for therapeutic and diagnostic advances in different diseases

Spliceosome-based approach for the identification of diagnostic and prognostic biomarkers and therapeutic targets in urogenital and brain tumor pathologies

Raul Luque
CIBEROBN

Neuroprotective effect of small extracellular vesicle-mediated targeting of AMPKα2 in cerebral ischemia

Alberto Ouro Villasante
CIBERNED

JUNE 18, 2025
4:00 P.M.

CIBEROBN WEBINARS 2025

UPCOMING JULY WEBINAR

Molecular insights into rare disorders: from pathogenic mechanisms to therapeutic targets

Spliceosomal approach for the identification of diagnostic biomarkers, prognostic markers, and therapeutic targets in rare tumoral diseases

Raul Luque
CIBEROBN

Alteration of hippocampal CB1R can drive neuronal-astrocyte dysfunction leading to cognitive decline in Huntington’s disease

Nadia Di Franco
CIBERNED

JULY 16, 2025
4:00 P.M.

CIBEROBN WEBINARS 2025

UPCOMING SEPTEMBER WEBINAR

Obesity: genetic background and possible lifestyle and surgical interventions

Effect of an exercise and lifestyle program on different fat depots

Cristina Cadenas Sánchez
CIBEROBN

Genetic Scores of risk for obesity and progression of weight loss after bariatric surgery

Araceli Rosa de la Cruz
CIBERSAM

SEPTEMBER 17, 2025

4:00 P.M.

JOIN THE WEBINAR

CIBEROBN WEBINARS 2025

UPCOMING OCTOBER WEBINAR

Rethinking Obesity: A new framework for diagnosis, management, and its impact on diet, nutrition, and chronic diseases

Diet, nutrition, chronic diseases and obesity

Cristina Valle Hita
CIBEROBN

Obesity or Obesities?: this is the question. New framework of diagnosis and management of obesity

Andrea Ciudin
CIBERDEM

OCTOBER 22, 2025
4:00 P.M.

JOIN THE WEBINAR

ciber | OBN

CIBEROBN WEBINARS 2025

UPCOMING NOVEMBER WEBINAR

The impact of fasting on vascular health and ECG use for its risk assessment

Impact of intermittent fasting on body weight, ectopic fat, and cardiovascular health

Jonatan Ruiz
CIBEROBN

ECG Analysis for Vascular Risk Assessment

Julia Ramírez
CIBERBBN

NOVEMBER 19, 2025

4:00 P.M.

JOIN THE WEBINAR

CIBEROBN WEBINARS 2025

UPCOMING DECEMBER WEBINAR

Insulin resistance: its impact on ELA and the role of physical activity

Influence of exercise timing on glycemic regulation

Raquel Sevilla
CIBEROBN

ELA and insulin resistance

Victoria Navarro
CIBERNED

DECEMBER 17, 2025

4:00 P.M.
